

TESTIMONIALS

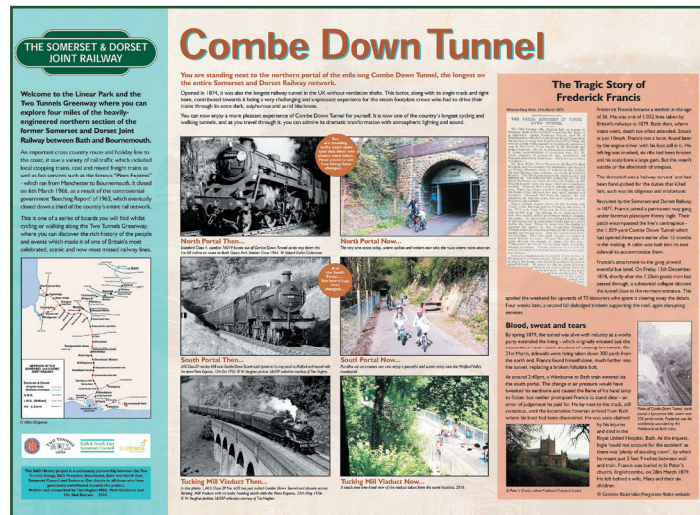

We are pleased to share some feedback from a selection of recent clients.

CHILTERN SOCIETY, ROGER NEWMAN

The supply of GRP interpretation panels, some with new lecterns and some to fit existing frames.

I thought you might like to know that removal of the earlier panel (which was supplied by you with a lectern frame in 2006) proved to be very straightforward.

The metal lectern frame is still as good as new and the information board we have replaced today is still in excellent condition. The only reason we replaced it is that site ownership has changed. We were very pleased with the durability of your products and will be placing several more orders with you over the coming months now we have acquired many new sites.

TWO TUNNELS GROUP, MATT SKIDMORE

The design & supply of 3 interpretation panels with aluminium lectern frames.

To all at 'Team Shelley'. Just a note to say a big thank you for all your efforts with the project. Everyone at the unveiling ceremony commented favourably on the info boards and seemed to really like them. Thanks again for your help (and patience) with bringing the project so wonderfully to life.

HALTON BOROUGH COUNCIL, TOM BANKS

The supply of 2 different interpretation panels, at a size of A0, from artwork supplied. One supplied with an aluminium lectern and one fitted into an existing structure.

Stuart's completed the installation at both Hale and Chadwick and they look great! Thanks very much for getting this organised in time for our grand unveiling on Friday.

WORLD OF WIDEWATER, JOANNE PROCTOR

A selection of interpretation panels supplied over a 2 year period. All artwork created by Shelley with the client providing some illustrations and Shelley the balance. All signs fitted to existing stone cairns in an exposed coastal location.

Many thanks for the Widewater interpretation panel received today.

It's fantastic! We are very pleased with the excellent quality and design. Hopefully we will be making another order for the next panel soon. Just waiting for the bird images to be sorted out.

CLITHEROE PINNACLE PROJECT, STEVE BURKE

The design and supply of one interpretation panel, fitted to an existing cairn. The design included reworking graphics, produced by a local designer, which was suitable for a leaflet but not an Interpretation panel.

Many thanks for the sign and recent install. It has been a great pleasure to work with you and all your team. If I can refer your company to anyone I will do so and/or give a reference should this be needed at any point in the future.

FOVANT BADGES SOCIETY, TERRY LISTER

One GRP sign and aluminium lectern frame, produced from artwork supplied.

We enclose a cheque as payment for your invoice. The sign looks brilliant! Thank you for your excellent work.

FRIENDS OF SUTTON PARK, ANTONIA WATTS

The design, supply and install of 6 interpretation panels and 15 Milepost style interpretation plaques.

The launch of the Interpretation Scheme went well and I would like to thank everyone at Shelleys for their input, especially your designer, Rob Swift

CORMONACHAN WOODLANDS ASSOCIATION, DOUGLAS LOCKE

The design and supply of one interpretation panel with an aluminium lectern frame.

Thanks for the delivery that arrived safely yesterday afternoon. The sign is now up and looks good—we are very pleased with it.

HIRST WOOD REGENERATION GROUP, PAULINE BRADLEY-SHARP

Design and supply of several interpretation panels with oak and aluminium lectern frames.

Thank you very much for the excellent work you have done. We look forward to receiving our next order!

FRIENDS OF ANDERTON & MARBURY COUNTRY PARK, ALAN REDLEY

We have supplied the country park with entrance signs, interpretation panels, leaflets and graphic design for many years. After a recent delivery Alan commented

We're delighted with both panels and particularly pleased with the suggestion from your designer Rob Swift to use black and white images rather than colour. Each time I've passed the site today, someone has been looking at them.

MICKLETON TOWN COUNCIL, MARK BAKER

A large wall mural supplied to fit inside a bus shelter. Artwork supplied as a watercolour illustration which was scanned by Shelley.

May I thank Shelley Signs for the superb mural installed last Friday in Mickleton. The villagers are delighted with the result. The overall appearance is brilliant. The joint between the 3 panels is particularly successful—the viewer is unaware there are 2 joint lines.

LORNA ROBSON

Design, supply and install of one wildlife interpretation panel

Thank you to you all! I am so pleased with the sign, Alan did a fantastic job installing. I apologised many times for the fact he didn't have the easiest of jobs to dig the holes. I'm so grateful I asked you to organise the installation. There have been many good comments about the sign from park users.

Alan will mention to you that we have two interpretation boards in the park in very inferior frames—it would be wonderful to see these given the Shelley treatment in the future!
